

McHenry Township
Fire Protection District
Administration Building
McHenry, Illinois

PROJECT DESCRIPTION

This 15,000 s.f. renovation and addition project will make improvements to accommodate the growth of the McHenry Township Fire Protection District. The existing headquarters station was built in 1987 and currently houses the chief of the department, 2 deputy chiefs, 3 assistant chiefs, the business manager and the fire prevention bureau. The goal of the improvements is to create additional private office space, a larger meeting room and a communication center.
